Caller Name Display

Caller Name Display

Using caller name display you can present your user name when you dial another person. This is particular handy when dialing other extensions in your organisation.

NOTE: You should restart or reset your phone after making any changes on this page.

Quick Guide

1. Log into <https://portal.hero.co.nz>.
2. From the top menu options select **Voice**.
3. The column name specifies the name associated with each number.
4. Set your Caller Names.
5. Navigate to bottom of the page **Update** to update
